with a Governor's salute from the frigate Franklin and other homors. Captain George C. Remey and the other officers of the station (Commodore Brown being in Washington) received and escorted the visitors around the yard, after which refreshments were served at the commandant's residence. This morning Senator Daniel was serenaded at the St. James by the local Democratic associations and responded in a ringing speech.

A large portion of the delegates to the convention left for their hemes this morning, but many remained over—among them

but many remained over-among them Senators Barbour and Daniel and Governor Lee-to avail themselves of the several ex-cursions given to the seashore by the rail-road companies or to take part in the Con-federate memorial demonstration. It was It. 30 o'clock last night when Lieutenant-Governor Massey finished speaking and the session of the convention closed. It is a matter of congratulation here that the con-vention was largely attended by the dele-gates and was so thoroughly representative, and especially that so many of the prominent and representative men of the State were in attendance. In fact, convention was an entire success and one of the most harmonious State bodies of the intricate steam and required.

The speeches were short but full

The velocity of the shell was very high of special State interest. Nothing was done that could in any way conflict with any action of the National Convention, and it was substantially shown that the party of the State was in excellent working order for the coming campaign. Considerable regret was expressed in the speech of Lieutenant-Governor Massey last uight and by the delegates during their slay regarding the difficulty be-tween the Democratic factions of this city. and everything possible was done to bring about a satisfactory adjustment of the trouble. The members of the "Committee of Forty" said early on the coming of the State Committee that fraud could not be arbitrated and they would not chaffer with the committee over the details of an issue that they could not, from the nature of the situation, appreciate. The split in the party over the municipal officers is probably now bewond healing, and two Democratic tickets will contend for the supremacy. Naval Constructor Joseph H. Linnard has

Testing the Nation's Best and Biggest

Defender at Aunapolis. An Annapolis (Md.) special says: The teninch steel breech-loading rifled gun designed
for the ironclad Miantonomoh and mounted
upon its hydraulic turret carriage was fired
twice on Monday last with blind-shell to test
the working of the carriage and breech mechanism. The first charge, a reduced one,
was fired to set everything well settled to its
bearings. The second was very nearly the
service charce of 250 pounds. The service charge of 250 pounds. The grin and carriage stood the test beautifully, and worked with startling eas and accuracy, both before and after firing. There is positively something uncanny in seeing this mass of nearly fifty the grant of the startling follows: tons moving, stopping, rising, falling, fol-lowing the motion of a man's hand smoothly and noiselessly. The hydraulic machinery reflects the highest credit upon the officers of the Bureau of Ordnance who designed it, and upon the young officers at the proving ground who superintended the installation of the intricate steam and bydraulic plant

of spirit, and the admirable effort of Gov-ernor Lee secured the earnest attention of the whole body and was probably the best the whole body and was probably the best which might prejudice the interests of the

Government.

This gun is the first of the ten-inch rifles for the ironeizd monitors. It is 27 feet 6 inches long and weighs 58,000 pounds, exclusive of its carriage. It fires a charge of 250 pounds of cocos-powder and a steel armor piercing-shell weighing 500 pounds. It gives a muzzle energy of from 24,000 to 25,000 Government tons-an energy capable of raising a ship of 6,000 tons displacement four feet out of the water. It is at present the most powerful piece of ordnance in the ession of the Government.

Dyspepsia
Makes many lives miserable, and often leads to self destruction. Distress after eating, sick head-ache, heartburn, sour stomach, mental depres-sion, etc., are caused by this very common and easing disease. Hood's Farsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:
"I have been troubled with dyspepsia. I had

but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, alligone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food reliabed and satisfied the craving I had previously experienced. It relieved me of that faint tired. nd it."
